	Marilyn Crawford	Alan Darney
	Chuck Downing	

The meeting was called to order by Chairman, Al Tweltridge.

Roll call and all members present.

The amended minutes for the August 31, 2006 meeting were approved.

Approval for Education Providers Report

ECCC approved Grant Joint Union Adult High School, I-TAP for both General Electrician and Residential Electrician. The school is listed as #137 in the State Approved School website.

ECCC approved Santa Barbara City College as a "partial" General Electrician only open to the public for "lecture only". No site visit was conducted, but prior to offering lab courses a site visit will be done. Two sites approved are in Santa Barbara and the IBEW Training Facility in Buellton, CA. Santa Barbara City College is approved and listed as #138 on the State Approved School website.

Barry Noonan submitted the application for San Bernardino College District to be added on the agenda for approval for the next ECCC meeting.

At the next scheduled public ECCC meeting, "lecture only" needs to be further discussed. Noonan cited Regulations 296.2.

A recommendation was made that ECCC approved General and Residential Electrician Curricula and crosswalks be posted on the DAS website.

Further discussion is needed on the process of approving state licensed private post-secondary schools.

A recommendation was made that the approved education provider be user friendly such as a searchable data base by county. ECCC will schedule a working session with DAS, to discuss this and report back at the next ECCC meeting.

There was discussion on including on the DAS website for each approved education provider a list of which elements of the Curriculum Standards are covered and which are not [Regs. 296.0(d)] for their curriculum.

The meeting was adjourned.

Respectfully Submitted,

Luisa Martinez
